

Product Brief

LG-Nortel IP Phone 8500 Series

The LG-Nortel strategic partnership with Microsoft® provides innovative devices supporting comprehensive Unified Communications solutions. Developed through this partnership, the LG-Nortel IP Phone 8500 series of devices delivers an intuitive and rich people-centric communications experience to employees and executives. These devices enable users to locate and communicate with customers, partners and colleagues in a highly integrated and secured environment using common Microsoft communications and collaboration applications.

With the IP Phone 8500 series, you can take the next step to richly improve your business communications.

- › **LG-Nortel IP Phone 8540** — A professional-level deskset with a fully integrated Microsoft® Office Communicator 2007 Client enabling advanced productivity features for executives, office roamers and those that prefer a fully integrated client on the telephone.

- › **LG-Nortel USB Phone 8501** — A USB audio device targeted at those soft client users who choose to use a handset or speakerphone that fully integrates with the Office Communicator 2007 Client on the PC.

- › **LG-Nortel Wireless Headset 8502** — A USB headset device with *Bluetooth*® wireless technology enabling untethered high-quality communications for the Office Communicator 2007 Client on the PC or any supported device featuring *Bluetooth* technology.

Advanced system offers great value to the enterprise

Microsoft Office Communications Server 2007 is the intelligence behind comprehensive Microsoft Unified Communications solutions for the enterprise. Office Communications Server 2007 and Office Communicator 2007 introduce software-based technology built on integrating Microsoft's many servers and applications — IM, Presence, voice, video and conferencing — which are essential to the competitive enterprise. Delivering a powerful unified user experience for all modes of

LG-Nortel IP Phone 8540

communication, the solution addresses today's often complex and confusing communication environment. Simplifying the user experience while delivering robust and extensive communication and collaboration capabilities improves user performance, productivity and responsiveness to customers and colleagues.

LG-Nortel IP Phone 8540

Fully-integrated Office Communicator 2007 experience on a phone

LG-Nortel IP Phone 8540 is an intelligent IP Phone optimized to support and employ the Microsoft Office Communications Server 2007 Unified Communications solution. This highly-reliable hard client combines advanced voice performance with an embedded Office Communicator 2007. The combination delivers superior voice quality using wideband codecs and the power of the communication and collaboration capabilities in Office Communicator 2007.

Key features and benefits:

- › Deliver unmatched convenience and fingertip control with a large 5.7 inch (14.5 cm) color touch-screen and an intuitive "simple-touch" user-centric interface

- › Search corporate and personal contacts easily via Microsoft Active Directory® and view their presence status: "Do Not Disturb", "Out of Office", "In a Call", "Away" or "Available"
- › Directory-based dialing
- › Display contact details and have the choice to call user's desk phone, cell phone or other device listed
- › Assemble contacts quickly and easily into group lists
- › Call forward your phone to another contact or number
- › Set your own presence status from the main screen
- › Add other participants to an active call using the "Conference" key
- › View your personal Microsoft Office Outlook® 2007 calendar, access your messages and missed calls list
- › Utilize the on-screen popup keyboard for text entry
- › Be fully integrated and synchronized with Communicator 2007 Soft Client on the PC
- › Interact with custom-made services built on the Microsoft Windows CE 5.0 Operating System
- › Eliminate the need for two Ethernet "drop" connections when using a PC with the integrated 2-port 10/100Base-T switch
- › Log in from any broadband IP network with Network Address Translation (NAT) support
- › Offers choice for power with Power over Ethernet (PoE) and local AC power options

Reducing overall costs

With context-based softkeys, control of complex communication features and functions is at the user's fingertips. The intuitive user interface simplifies operations, minimizing user training and support calls. Ideal for distributed work stations, users may log on using Biometrics (via fingerprint reader) or PIN which activates the IP Phone 8540 and loads personal information from Office Communications Server 2007 and Active Directory.

For the IT administrator, automated secure provisioning and maintenance protects against misuse and minimizes installation time and resources.

LG-Nortel USB Phone 8501

Extending the OC Client with a handset/speakerphone

The LG-Nortel USB Phone is a Microsoft Office Communicator 2007 PC peripheral designed to provide the comfort and familiarity of a handset audio interface. For the user preferring to employ a separate handset with Office Communicator 2007 on the PC, the USB Phone easily connects to the Communicator PC via a USB port. Superior wideband audio delivers clear crisp audio through the handset or speakerphone built into the USB Phone cradle.

LG-Nortel USB Phone 8501

Based on the distinctive IP Phone 8540 design, the USB Phone delivers the essential audio features such as wide-band audio, full duplex speakerphone, mute button for hands-free mode and presence indicator.

LG-Nortel Wireless Headset 8502

Extending the OC Client with untethered communications

The LG-Nortel Wireless Headset with *Bluetooth* wireless technology cuts the tether to the Office Communicator 2007 PC. For use with any Office Communicator 2007 device, the Wireless Headset eliminates the need of a handset without the office disruption caused by a speakerphone. The Wireless Headset with *Bluetooth* wireless technology lets you roam locally in the office. With a range of 10 meters (32 feet) and a talk-time of six hours, the Wireless Headset is ready for a full day's work; place the ear-bud over your ear and connect to the USB transmitter in the USB port of the Communicator 2007 device. Like all LG-Nortel Communicator 2007 devices, the Wireless Headset supports broadband audio, so calls are crisp and clear.

LG-Nortel Wireless Headset 8502

LG-Nortel IP Phone 8540 specifications

Component	Description
Operating system	Windows CE 5.0
CPU	ARM9+ based microprocessor
Memory	RAM: 64MB, 2 pieces of 256Mb 16MX16 400 MHZ DDR
Flash memory	Flash ROM 32 (4Mbx8) NAND Flash
Display	5.7" TFT color LCD, 320x240 resolution, 6 bits per color
Handset	Standard handset with RJ-22 connector
Headset	Compatible with industry amplified business headsets using an RJ-22 modular jack
USB ports	<ul style="list-style-type: none"> Type-A and Type-B supported USB 1.1/USB 2.0 compatible Full speed (12 Mbps) port
